

Jim Guerci

Course Title:

Multiple Intelligences

Content Areas:

All

Grade Level:

K-12

Goal:

Teacher Objectives:

- Teachers will understand Multiple Intelligences and each aspect of it.
- Teachers will complete a self-evaluation to determine their own multiple intelligences.
- Teachers will investigate and report on the multiple intelligences, as well as determining the most effective methods of teaching to the intelligences.
- Teachers will complete a graphic organizer, designing lessons/activities for each of the intelligences.
- Teachers will become proficient at incorporating a particular intelligence throughout the core subject areas.
- Students will create a unit of study incorporating as many of the multiple intelligences as possible in their lessons.

Overview:

The goal of this course is to have teachers understand and create instructional lessons incorporating Gardner's Multiple Intelligences to accommodate different learning styles within a general education classroom.
