

## **Using Technology for the Science Assessments: Secondary**

Using the Internet and the MarcoPolo web portal, teachers will explore materials that will support the Science Assessments, particularly, the new Constructed Response Questions. This content will be integrated into projects and/or lessons for the classroom. Assessment of the project/lesson will also be discussed.

This course will be conducted completely online for six weeks. (15-hour course)

Prerequisites for the course are as follows:

- Basic email skills
- Basic Word Processing skills
- Adding an attachment
