

Course Title: Using Excel In Your Classroom

Content Area: Mathematics/Interdisciplinary

Grade Levels: K-12

Description: This course will provide teachers with all the basic and some advanced features of the Microsoft Excel spreadsheet program. Teachers will learn how to incorporate the use of spreadsheets into their curriculum. Teachers will design standards-based lessons that combine the use of spreadsheets with data collection, statistics, chart creation, and presentation. Teachers will also learn how to find lessons and projects for all grade levels that use spreadsheets. NYS Standards: MST, Social Studies, Science, and ELA.
